

International Metaphysical Academy

For Universal Knowledge

What is 'Metaphysics'?

Metaphysics is the study of mind, energy and matter, unexplainable phenomena that often are invisible to the human eye, universal laws and principles, intelligence, spirituality, consciousness, our existence and the purpose of all life.

What is the International Metaphysical Academy?

It is a rapidly growing **non-denominational** and **non-political Metaphysical** facility offering cutting-edge metaphysical education and universal knowledge world-wide.

The Academy offers metaphysical instructor certification, mentoring, counselling, consulting and coaching services for individuals and groups, customized workshops, keynote speakers and private study opportunities. We provide education for parents and teachers who work with specially gifted children, such as Indigo and Crystal Children. We also work directly with Indigos and Crystals themselves.

The *Metaphysical Academy* originated in Victoria, BC in 1995.

Our Goals

We support, educate and facilitate the personal and spiritual advancement of all individuals who sincerely seek knowledge, inner contentment and meaning in their life. We encourage individual thinking and accountability and we assist people in the application of acquired knowledge to real life issues.

One of our key goals is to strengthen an individual's ability to discern between spiritual hype and information that is of real value. Our work is not based upon fortune telling, sensationalism, exploitation or currently popular, superficial spirit entertainment. Rather, it is grounded in universal knowledge with practical hands-on application to meet everyday challenges.

How do we Accomplish this Goal?

Through public lectures, seminars, individual spiritual coaching and a practical step-by-step Metaphysical Academy program which gives insight into much-needed knowledge of the understanding of life, our role on this planet and in the Universe at large. Topics include Spirit Phenomena, Mediums, God and Life in the Universe, Man as a Body/Soul/Spirit entity, Research on Instrumental Trans-Communication, New Aspects of Medicine, Health, Consciousness, Spiritual Leadership, General Global Concerns (world peace, research, food, etc.), Near-Death Experiences, the Dying process, Karma and Reincarnation.

The curriculum includes the following general topics which are broken down into more discrete modules with even more precise segments:

- I. *Creation and the History of Man*
- II. *Karma, Choices and Learning Processes*
- III. *Reincarnation*
- IV. *The Multidimensional Brain*
- V. *The Spiritual World*
- VI. *Communication with the Beyond*
- VII. *The Concept of Good and Evil – Heaven and Hell*
- VIII. *Universal Principles and Laws*
- IX. *Human Experiences*
- X. *Roots of Illness and Abundant Health*
- XI. *Death and the Transition Process*
- XII. *Integration of Body, Mind, Soul and Spirit*
- XIII. *Christianity and other Religions*
- XIV. *Spiritual Intelligence*
- XV. *The Future of Man*
- XVI. *Metaphysical Science*
- XVII. *Secret Knowledge*

You will learn:

- **How to master this life to the best of your ability and how to find your right place in the Beyond**
- **Universal knowledge about human illnesses and how to deal with them**
- **Where everything in life comes from, and how to get assistance to effectively deal with life's challenges**

- **How to maintain consciousness and awareness during everyday life**
- **How to attain and retain a state of groundedness**
- **How to use practical, hands-on tools to manage your life**
- **How universal knowledge will facilitate a successful future**

From where do we get our Knowledge?

We share and compare spiritual information from a wide range of sources, inviting and including many well-known, credible metaphysical scholars, scientists and philosophers.

We also reference spiritual information from the Beyond, provided by the entity 'Theobald', a Universal Spiritual Teacher, channelled through his exclusive Medium Manuela.

We differ from other Spiritual Learning Communities or Groups

Our International Metaphysical Academy provides a safe, supportive environment without dogma, doctrine or rituals. Study texts include everything from ancient scriptures, current publications and scientific reports to medially transmitted information. It does not represent a religion, cult or sect but rather offers quality education, teaching, self-development and self-evaluation.

The Metaphysical Academy supports and guides anyone who is genuinely searching for truth. It is committed to ethical principles and based upon the belief in one God; one overall

spiritual power or intelligence.

Students of the Metaphysical Academy are encouraged to maintain their personal involvement with their Church or any other religious or spiritual practice.

When and Where?

Academy classes are held on Saturdays in Victoria, BC on a bi-monthly basis. The curriculum consists of five modules, each of which constitutes one year of study. In addition, the Academy offers a wide range of half-day workshops with hands-on tools to make life more purposeful, richer, easier and more enjoyable.

Theobald:

“The future is the science about the Universe. God’s teachings are not religious. They are meant to be used for the future of man. This future is spiritual and its leadership comes from God and his helpers. In today’s times it has become necessary to lead the people of tomorrow through correct teachings into the Spiritual World so that eternal life will be open to all.”
