The Path of God

If the path to God were exquisitely pretty, nice and easy – and one were sitting on a silk blanket, surrounded by gold and glitter while being blessed with divine music and bliss – everyone would be sitting on it and the negative forces would have won their game.

The path to God, however, is filled with tests, as well as, at times, with long detours.

Only those who have faith are willing to take it.

All others prefer to take a shortcut – and go directly to the other, the negative's side.

It is easy to eat the porridge when it is deliciously cooked and served. It is hard, however, when one has to first plant the seed for growing the grain.
