

Theobald's Philosophy

24.11.2012

Q2: Theobald, how can we 'label' your philosophy, your teachings and your instructions which guide us to advance spiritually and expand our consciousness? As it clearly sets itself apart from the contemporary understanding of any religion, sect or cult, what can it most accurately be called?

T: *It's simply the instructions from God's messengers to assist mankind to prepare themselves for the end of times.
It is the philosophy of eternal life.*
